

Easi-Scan:Go™

Move more, do more, wireless.

Wireless, connected on-farm ultrasound, strengthening the relationship between vets and farmers, ensuring better productivity on the farm and improvement in animal health.

Be connected: The Easi-Scan:Go integrates seamlessly with the modern farm. It is a wireless, App based scanner, that can present the ultrasound image on up to 3 devices simultaneously. With the IMV Cloud you have instant access to vital data, enhancing team work and strategic planning.

Be Smart: Smart devices are not only used to view the image but also to record data. Vets can plan their day with Visits ToDo App and send a notification to the farmer before arrival, reducing waiting time.

Let's Go: Fast, light and with minimal set up time, the Easi-Scan:Go provides speedy results without sacrificing accuracy. Completely sealed, the scanner is water proof for ease of cleaning and maintaining biosecurity.

**UP TO 3 IOS
OR ANDROID DEVICES**
can be connected

WATERPROOF
Sealed buttons with
no connectors.

850 GRAMS

IMPROVED FLEXIBILITY
for better cable
management

USE CALIPERS
to measure the embryo size

RECORD VIDEOS
and save images
on your smart devices

**LOW COST
LITHIUM-ION BATTERY**
up to 5 hours

128 ELEMENTS,
receiving on 32 channels, 26 frames per seconds

Enhanced Efficiency

Sound-Link, IMV's unique wireless data transmission platform for real time imaging allows image display without any image lag. With Smart-Beam technology we have developed an ultrasound scanner that requires minimal power, with standard Wi-Fi devices used as a primary viewing

Unrivalled Longevity

The Easi-Scan:Go is our most rugged scanner yet. Waterproof and with a strengthened probe cable, the scanner is more durable than ever.

Clever Connectivity

Relevant data is uploaded to the IMVCloud online data storage via Scan-Share. The data can be reviewed, downloaded and shared

Improved Productivity

Used with Visits ToDo App, you can capture cow-side data, making clipboard recording a thing of the past. Engaging both the vet and farmer, ensure diagnostic results are recorded correctly and optimize your farm visits.
